Environmental and Dredging Services

A proven track record of safe, efficient and innovative underwater services has made Ballard Diving and Salvage an industry leader. Our attitude of success and pride has consistently delivered quality projects on time or ahead of schedule. We're well known for our expertise in aggressively managing underwater construction projects with demanding schedules and complex components. Call or log on to our website for more information.

All of our operations are conducted in accordance with all Federal, State and Local safety regulations. We have performed thousands of contaminated water divers performing complicated construction tasks – all with NO lost time injuries.

NUC provides emergency nationwide service - all systems built as fly-away units.

NUC is a member of the Association of Diving Contractors and the Western Dredging Association.
