Offshore and Nearshore Services

Ballard Diving and Salvage has a proven track record of safe, efficient and innovative underwater services. The combination of our operational success and our unblemished safety record has made BDS an industry leader. Our attitude of success and pride has consistently delivered quality projects on time - or ahead of schedule. We're well known for our expertise in aggressively managing underwater construction projects with demanding schedules and complex components.

Whether the project is short or long duration, located in the Bering Sea or the Caribbean Sea, Ballard Diving and Salvage has the experience to meet your needs. Please call today to request our industry references.
